

Styling parts that make your truck look great!

ARROW Door Wind Deflector

Transparent material

Part number: 276

Fits all models: **Scania New Generation**

With our new Wind Deflectors for Scania Next Generation you get a much more comfortable interior environment no matter if it's deflecting wind or rain.

The deflectors are made of transparent plastic. Mount them as they are or paint them in preferred colour to match the rest of the cab.

By opening the window partially, you have the possibility to a better air flow, but still protected from windy and rainy weather.

Sold in pairs. Two versions – Axe and Arrow. Delivered transparent with protective plastic on one side.

Mounting

The deflectors are very easily mounted. Two coils of transparent adhesive tape are included. The tape will cure within 24–48 hours depending on the ambient temperature.

Length.....	82,5 cm
Height.....	20,5 cm
Depth.....	1,5 cm
Weight.....	423 gram

Delivered transparent
