

## Sunvisor for DAF XG, XG+ and XF 2023-

A robust sunvisor developed with efficient transportation and storage in mind. The design is made to fit perfectly onto all DAF XG, XG+ and XF cabins from 2023 and newer. It is mounted directly on the original´s brackets – no extra parts are required. The Sunvisor has a smooth inside without the fiberglass look but keeps all the strength and durability of a composite material.

- One sunvisor that fits all cabins
- Stretches 7 cm lower than the original sunvisor
- Does not interfere with the vehicle's camera
- Provides needed comfort when the sun is low
- Mounting with original screws, rubbers and washers
- No visible screwheads
- Original upper part is reused and fits perfectly with the Sunvisor
- Available in variants with LED-bar integration and position lights
